## Hotel Site Approved By Chamber

City and Provincial Authorities Urged To Expedite Project

Approval of city council's action, in selling property on 100 street and 102A avenue for the purpose of erecting a \$3,000,000 hotel was expressed Wednesday by the council of the Edmonton Chamber of Commerce.

In view of the urgent need for hotel accommodation, and since the construction company is ready to go ahead as soon as the site is acquired, the Chamber of Commerce urges that both civic and provincial authorities do everything to expedite the project.

The chamber acted on recommendation from its civic and hotel accommodation committee, which has been studying the proposal for a civic centre and hotel accommodation for years.

The Chamber has representations from the city commission, the local agent for the Glenison Development Co., and members of the Town Planning Commission.

**REASON FOR DECISION**  
The Chamber's decision was based on the following considerations:

The shortage of hotel space, at the present time, a serious detriment to business in this city. Farmers, commercial salesmen, those interested in mining development, and others, who are engaged in various activities, as well as air line passengers, are unable to find suitable accommodation.

Also, lack of accommodation is a serious handicap in developing Edmonton as a tourist and convention center.

In fact numerous conventions have been forced to go elsewhere to find a few more rooms.

**GIVEN ASSURANCE**  
The Council of the Chamber was assured that the plans of the hotel will provide suitable and adequate public space for convention facilities.

## Inwed Mothers Not Forced to Quit Babies

Alberta child welfare officials do not ask unmarried mothers to give up their children as a condition of financial assistance.

Testifying today before the Royal Commission investigating child welfare, Hazel Mary Armstrong, Calgary inspector with the welfare department, flatly contradicted allegations in the Whiston report and by previous witnesses, as to policies of the department.

Miss Armstrong said statements from the Whiston report that mothers of illegitimate children "will get no help unless they give up their children to the state."

**OTHER CLAIMS DENIED**  
Miss Armstrong also denied other statements in the report that mothers are told not to see their children after they are born, not to nurse them and that the children must be bound over by indenture to the department.

Witness said that where an unmarried mother expresses a desire to keep her child she is encouraged to do so.

She also denied that children in two Calgary foundling homes had been without needed clothing and shoes because certain articles were looked upon as luxuries by the department.

Witness said that where an unmarried mother expresses a desire to keep her child she is encouraged to do so.

## Flood Fighters' Fatigue

EXHAUSTED SAILORS, bewhiskered and grimy from a night of filling sandbags in the near-hopeless battle against raging B.C. flood waters, collapse and sleep in any convenient out-of-the-way spot. (Another flood picture Page 3.)

## Weatherman Fools King And Disappoints Throng

LONDON, June 10.—(Reuters).—Thousands of Londoners, packed tightly together to see the trooping of the color on the King's official birthday gaped in astonishment today when loudspeaker vans suddenly appeared to announce that because of the weather the King had cancelled what is one of the most colorful royal pageants of the year.

The sun was shining brilliantly. Sixty-seven officers and 1,755 other ranks waiting in their barracks for the parade were told to take off the high boots they had been polishing since early morning and strip themselves of the brilliant scarlet, white and black uniforms which they were wearing for the first time since the war. For months they had been rehearsing.

**LEAVE DISAPPOINTED**  
In the waiting crowds foreign diplomats in morning coats and grey top hats, and women in fashionable dresses dispersed in disappointment.

Reason given for the cancellation, announced only an hour before the parade, was that meteorological experts had forecast rain and thunderstorms. Lightning had struck in London a few hours earlier.

A War Office official said the risk of rain had to be taken into account because of the effect of a downpour has on scarlet uniforms, valuable and hard to replace in Britain's age of austerity.

Military men could not recall a previous occasion on which the trooping had been cancelled because of weather.

**WANT NO RUMORS**  
To a barrage of questions, Buckingham Palace officials responded: "Let us not start rumors."

Gossip spreading among the crowds inevitably centred on the possibility of a Royal illness, but this received no encouragement from official quarters, who insisted that the weather alone was responsible for the cancellation.

Equally without confirmation were crowd rumors that Scotland Yard had received reports of a bomb attempt being planned.

It was announced the King would, as planned, open the Royal tournament indoors at Olympia later today. Crowds gathered outside Buckingham Palace during the morning and there were some shouts of "we want the King," but there was no Royal balcony appearance.

Protesting in the strengthening sunlight, children were led from the parade ground by their parents, who tried to explain the reasons for the postponement.

**Alta. Murder Hearing Opens**  
Preliminary hearing into the charge of murder against 20-year-old Michael Zacharak, St. Paul farm hand, opened in St. Paul today.

Charge against the youthful farmer was laid last Thursday, two days after police search parties discovered the bullet-shattered body of 34-year-old William Pacholek of Spedden, 130 miles northeast of Edmonton.

Zacharak was arrested two days ago on three theft charges, following disappearance of several household items from Pacholek's farm.

The accused was employed by Pacholek at the time of the slaying, which police believe was May 13.

The murder hearing opened this morning before Magistrate S. Pire in St. Paul police court.

Zacharak was not represented by counsel at court opening today.

Several witnesses are slated to appear at the hearing which continues today.

## Howling Wind, Rain Increase Flood's Toll

## ROCKET PLANE FLIES FASTER THAN SOUND

WASHINGTON, June 10.—(UPI).—The air force's X-5 rocket plane has flown "much faster than the speed of sound many times," air secretary W. W. C. Wright announced today.

The speed of sound is about 760 miles an hour at sea level. Symington made the announcement at a press conference. Air experts noted the supersonic flight the greatest achievement in flight history since the Kitty Hawk, N.C., flight of the Wright brothers.

Capt. Charles K. Yeager, 25-year-old air force ace, was the first man in history to fly faster than sound.

Undoubtedly the plane was flying at a high altitude. The speed of sound decreases with height. For example, the speed of sound at 40,000 feet is 660 miles an hour.

The X-5 was designed to fly faster than sound said that military secrecy prevents him from telling about it.

Capt. Yeager said that "as far as I'm concerned, I don't even know there has been a flight."

He said he had not been told officially that an announcement of the flight had been made.

**CHARLES YEAGER**  
... He flew it.

**King Attitude Is Called Farical**

WINNIPEG, June 10.—(CP).—The Progressive Conservative party has "never had any tie-in with either Communists or the CCF-ers" — and that is more than the prime minister or his government can say," national leader John Bracken said today.

Mr. Bracken was commenting on a statement issued in Ottawa yesterday by Prime Minister Mackenzie King who said high living costs and a general dislike of privations and restrictions had worked to the advantage of the CCF.

It is being pointed out that the CCF party has profited most by this ill-motivated combination," said Mr. King. "The Progressive Conservative party, by joining in the combination, has well high destroyed itself."

The prime minister's criticism in the house of commons by opposition political parties was also referred to "confident criticism in the house of commons by a prime minister to make a comment of that kind," said Mr. Bracken.

He said to attend the Manitoba convention of his party.

"... in censuring the opposition parties for criticizing the government, he (Mr. King) adopts a farical attitude. He would want us to believe it is high treason to criticize the government."

Of Mr. King's statement that by joining the combination of opposition parties the Progressive Conservative party had "well high destroyed itself," Mr. Bracken said, "that is wishful thinking on the part of the prime minister. What's worrying him is that in the three years his government has lost four by-elections while the party I lead has lost one and gained one."

**Edmonton Boy Drowns**

An Edmonton-born youth, Kenneth Walker McLean, 23, 1168 128th street, was drowned Monday at Mills Lake, McKenney River, N.W.T.

Employed by the Yellowknife Transportation Co., for the past two months, the young man was believed to have fallen from a river barge while at work Monday.

Well known in West Edmonton, McLean was a member of the school and Westlign High school in this city.

**Police Officers Sued For Assault**

TORONTO, June 10.—(CP).—Norman J. Wilkins yesterday claimed \$10,000 damages from three former police officers whom he charged with assault. Wilkins filed a damage claim with the Ontario supreme court.

The three officers, who insisted that the weather alone was responsible for the cancellation.

Equally without confirmation were crowd rumors that Scotland Yard had received reports of a bomb attempt being planned.

It was announced the King would, as planned, open the Royal tournament indoors at Olympia later today. Crowds gathered outside Buckingham Palace during the morning and there were some shouts of "we want the King," but there was no Royal balcony appearance.

Protesting in the strengthening sunlight, children were led from the parade ground by their parents, who tried to explain the reasons for the postponement.

**Alta. Murder Hearing Opens**  
Preliminary hearing into the charge of murder against 20-year-old Michael Zacharak, St. Paul farm hand, opened in St. Paul today.

Charge against the youthful farmer was laid last Thursday, two days after police search parties discovered the bullet-shattered body of 34-year-old William Pacholek of Spedden, 130 miles northeast of Edmonton.

Zacharak was arrested two days ago on three theft charges, following disappearance of several household items from Pacholek's farm.

The accused was employed by Pacholek at the time of the slaying, which police believe was May 13.

The murder hearing opened this morning before Magistrate S. Pire in St. Paul police court.

Zacharak was not represented by counsel at court opening today.

Several witnesses are slated to appear at the hearing which continues today.

## B.C. Rivers Create New Devastation

VANCOUVER, June 10.—(CP).—Howling winds and lashing rain throughout the Columbia and Kootenay River flood areas today gadded the frenzied rivers on to new devastation.

From Trail, 230 miles east of Vancouver, up the Columbia Arrow waterways system to Robson and Nelson, and from there down the Kootenay to Creston, flood control officials are busy counting overnight losses.

Creston's 20,000 acres of rich farmland have been narrowed down to an island of about 5,000 acres, with civilian and army personnel battling desperately to save the last dikes.

Crop damage estimates range from \$1,000,000 to \$1,500,000, but permanent damage to the land itself is considered negligible. Still in that area will prove beneficial to the soil, officials predicted.

**Trail Fights To Stem New River Threat**

TRAIL, B.C. June 10.—(CP).—A single wood and sand dike is all that stands between the seething Columbia torrent and the main business section of trail, 230 miles east of Vancouver.

Driving rain added acute discomfort to the desperate efforts of the smaller city's battalion of flood-fighters.

Seepage through the hastily-constructed rampart has already flooded a hundred downtown basements almost to the street level. Water in the Crown Point Hotel basement stands at five feet, and in the Main Street Hotel at 10 feet.

Basement of the 130-bed hospital is flooded, and plans have been made for evacuation if conditions become more dangerous. The Trail Times' stereotyping room has been moved upstairs, and even two nurses working at night blast can't keep the cellar clear.

Ton after ton of gravel is being dumped into the dikes, and in East Trail, mountain of filled sandbags are in reserve for an emergency.

**New Break In Rail Line**

Another bad washout on the Canadian National Railway's main line through British Columbia Wednesday night has played havoc with traffic between Edmonton and Hope, B.C.

New washout occurred just west of Kamloops and west-bound passengers are being transferred by bus at Hefley, B.C., to waiting trains on the other side of the washout.

They then travel as far as Hope, B.C. by rail and transfer to buses again for the rest of the journey to Vancouver.

Canadian Pacific Railway service between Calgary and Haig, B.C., interrupted Tuesday night by a washout on its main line, was resumed Wednesday night.

Tuesday's west-bound CPR train was held up all night in Revelstoke while repairmen worked overtime to repair the track.

**Frantic Battle Near U.S. Border**

VANCOUVER, June 10.—(CP).—The six-month long water defences along the Vedder canal, holding back the waters of the Fraser and Vedder rivers, today were in danger of collapse.

United States flood control experts warned a major break of disastrous proportions could occur at any moment, and called for the evacuation of all residents not engaged on the threatened dikes.

Thousands of acres of rich farmlands bordering British Columbia and the state of Washington in the Sumas area were endangered.

Sumas, 60 miles east of here, is below the normal level of the Fraser.

In a combined-operation, 900 civilians, a naval detachment, army engineers and United States volunteers are working to strengthen the dike defences.

**DEATHS RECORDED TODAY**

Anderson, John Marshall, Biernski, Sable, Faulkner, Charles, Foster, Velma.

Gagnon, Horstmann Michael, McCauley, Annie, Moore, William John, Polajlow, William, Telford, Isabelle.

## Song Goes Out of English Hearts—Pug Ban Banned

By ROBERT MUSEL  
LONDON, June 10.—(UPI).—Britain, the nation that introduced the first popular song hit, has practically stopped hearing—and song pluggers along London's Tin Pan Alley wish they knew why.

Maybe, they figure, it's because of living conditions. There's a scarcity of nearly everything—even music—these days at an all-time low.

But song business was never better than when bombs were falling all over London. Conditions hardly could have been worse.

Whatever the damper is, the British public—champion sheet music buyers of the world—have just about quit buying.

A big hit song in Britain used to sell about 50,000 copies a week. This week the best-selling song sold only a little over 4,000 copies. It is a sad Irish folk ditty entitled "Galway Bay." Publishers say its lugubrious tune may account for its comparative popularity.

Some practical-minded publishers link the song decline to the wiping out of "plug money." Band leaders used to get paid for plugging a new tune. But the British Broadcasting Corporation ended the practice by threatening to ban publishers or orchestra leaders from the radio for two years if caught in a bribe.

"Plug money" is paid all over the world. But nowhere was it widespread as in Britain. "Late in the 18th century, British song publishers started the 'plug money' practice when they paid street musicians to sing and play 'The Girl I Left Behind Me.' The scheme paid off. The tune became the ancestor of the modern song hit of today."

## BRITAIN WON'T LET ALL KILLERS LIVE

LONDON, June 10.—(CP).—Home Secretary Chuter Ede today revoked his decision of last April that all future murderers in Britain will automatically be reprieved.

From now on, he told the Commons, each case would be considered on its merits.

Ede's statement followed an accusation by the Lord Chief Justice, Lord Goddard, last week that in making reprieves automatic Ede had altered the law by administrative action.

The home secretary's decision for automatic reprieve was made after the House of Commons passed the "no hanging" clause in a judicial reform bill last April. Since then he has reprieved five convicted murderers.

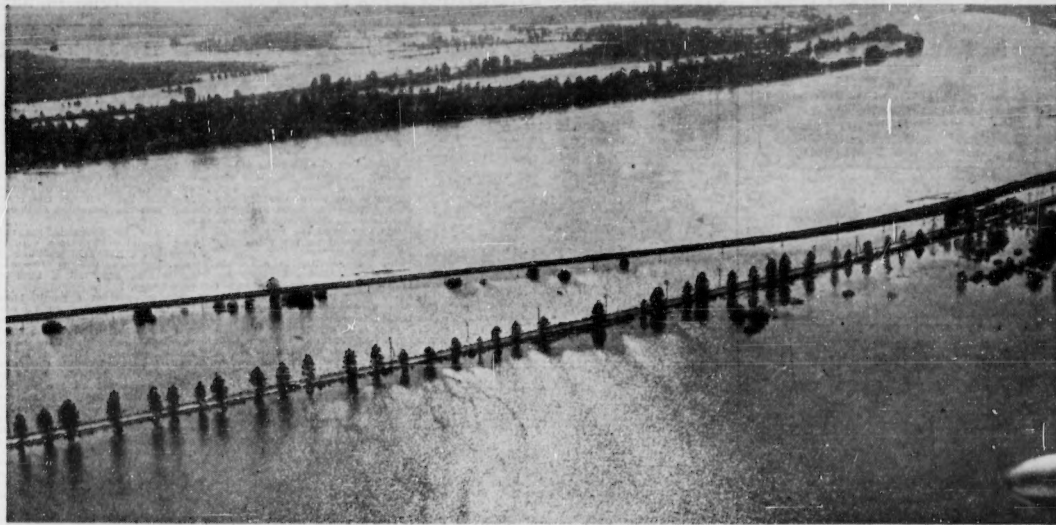

NOT SO CHUMMY now are 28-year-old divorcee Dorothy (Bride-for-sale) Lawlor, and Dayton Beach Tavern-keeper Danny Wicker. See It Happened Today, Page 2.

FRASER VALLEY LIFELINES are these two tenuous threads wandering across hundreds of acres of flooded farms. They represent the Lougheed Highway and CPR tracks between Vancouver and Mission. The lines, on the north bank of the Fraser, are vital to the steady stream of

### SNUBS GRACE, GETS JAILED FOR PRETENCE

A plea by a young air force veteran charged with false pretences, that he had a family to support failed to impress police court magistrate Wednesday.

Leslie Cadell, Edmonton, facing four charges of false pretences, was sentenced to six months on each charge. Terms are concurrent.

Cadell was remanded by Magistrate A. L. Miller earlier this year in order to make restitution of nearly \$250, obtained by bogus cheques.

In police court Wednesday, Cadell claimed he could not make restitution because he had a family to support.

The worthless cheques were cashed at city stores and banks in December and November, 1947.

Cadell had previously pleaded guilty to all four charges.

### Western Y's Meet June 11

The YMCA National Council Regional Conference will convene at Chateau Lake Louise June 11 to 13.

In attendance will be Y leaders from Winnipeg to Victoria.

Three commission studies and a report on the work of Jack Dundas, YMCA worker in India, will be presented.

Edmonton delegation will consist of Waldo F. Empey, Harold Facknacker, William Pettigrew, Robert Wishart, J. P. McClary, Lee Nickola, Gordon McClary, Lee Nickola, Adrian McDonald, Ralph Lloyd, Harold Sprague, Armour Bull and Clark Ready.

### Young Swimmers Win Red Cross Awards

Thirty-one new swimming and water safety instructors of the Red Cross Aquatic School received awards Wednesday night at a banquet arranged by the Edmonton Red Cross Society.

The young instructors will spread their knowledge this summer at local pools and various provincial summer camps.

Now in its second year of operation, the Red Cross school is dedicated to educating the public in swimming and water safety throughout Canada.

Alberta school was organized in June, 1946, by W. M. Ristien-Bennett at Calgary. He taught the first class of instructors.

Later the same month, Mr. Ristien-Bennett gave the intensive, one week course to 14 young Edmonton swimmers.

Two 18-year-old veterans of that original class, Douglas Swail and Doris Elliott, have risen to become the only two instructors who are qualified to act as examiners.

### AIR FORCE DAY JUNE 12

## Edmontonians Slated For Air Force Exhibit

Edmonton citizens will soon have a chance for an "inside look" at operations and equipment of the Royal Canadian Air Force, and at the same time see a spectacular air display.

Saturday, in conjunction with national "Air Force Day," open house will be held at RCAF station, Edmonton.

The display will be at the old American army air force base near 118 avenue.

Big feature of the display will be a fly-past of all aircraft to be

## Province Wins Battle Against Gas Pipeline Bill

The bill proposing incorporation of Western Pipelines Ltd., to carry natural gas from Alberta was withdrawn at a senate committee meeting in Ottawa today.

Sponsors of the pipeline bill, introduced by the federal government, were asked that the bill be withdrawn for the time being.

Pipeline scheme backers told the senate committee, on transport and communications, today, that, in deference to opposition to the scheme from the minister of transport and a general bill controlling pipelines could be introduced in parliament, they wished the bill withdrawn.

### Anderton Heads Lions

W. "Bill" Anderton was installed as new president of the Lions Club at the regular club meeting held Thursday.

He succeeds Wilson Faulder.

B. D. Thomsen was installed as first vice-president, along with Harry Ashton and Maurice McNair as second and third vice-presidents respectively.

A. J. Stockman was installed as secretary, and H. M. Moore as treasurer.

Lonsamer installed was G. M. Thompson and Tail Twister, Charles Scanlan.

Board of directors for the 1948-49 term are E. Carlson, J. W. Woods, W. H. Rayson, and S. E. Bushe.

Three new members, S. Melton, A. C. Shuttleworth, and J. R. Rice were inducted at the meeting.

President Wilson Faulder presided at the meeting and will officially turn over the office to the new officers July 1.

Entertainment at the meeting was presented by Jack Dennison, club pianist.

### Divorce Granted

Mr. Justice S. J. Shepherd in supreme court today granted a decree nisi of divorce to Sophie Wolanski from John Wolanski.

### Hotel Erection Delayed 2 Months

Plans for the construction of the proposed \$600,000 hotel on the civic centre will be delayed for at least two months, pending submissions for and against the rezoning of the property.

Under the terms of the provincial town planning act, the proposed zoning change must be advertised for eight consecutive weeks and a meeting called to hear representations for and against the proposal.

The advertisement has been drafted and will be inserted in the daily papers immediately.

### Chamber Backs Judge Report

Appreciation of the Judge report on taxation was expressed by the Edmonton Chamber of Commerce in a letter to J. W. Judge, chairman of the commission.

The communication congratulates the commission on the thoroughness, care, courage and impartiality manifested in its recommendations. The Judge commission completed a survey of municipal taxation which was presented to the provincial legislature at its recent session.

The reason—because in preparing foods for your baby's inexperienced stomach, Libby's take an important extra step. After straining, Libby's Baby Foods are homogenized—rough fibres are pulverized, tough food cells are actually opened, the nourishment is released for immediate digestion. Libby's Baby Foods are especially fine times faster in texture than foods which are only strained.

Think what this means at the critical time when you start feeding fruits and vegetables! What a continued safeguard it is! No other baby food offers the additional advantages of homogenization.

### Military Notes

The 36th Casualty Clearing Station RCMC (RF) will parade at the Prince of Wales Armoury, Friday, at 8 p.m.

Number 418 Auxiliary RCAF Squadron will conduct a flying program Saturday. Both "A" and "B" flights will be on duty.

A Squadron parade will be held in "M" Hangar Tuesday, at 7:30 p.m.

Loyal Edmonton Regiment will parade at 8 p.m. tonight in the Prince of Wales Armoury. Dress: Battle dress, web belts, berets and puttees.

### Ukrainians Meet Tonight

Fifth annual convention of the United Ukrainian Canadian, provincial association, will open in Edmonton tonight.

The convention will open with a concert in the Ukrainian Labor Temple, 1628 96 street, and will continue with deliberations Friday, Saturday and Sunday morning.

It will be concluded with a picnic in Victoria Park Sunday afternoon.

One-hundred and forty delegates from all sections of the province are expected to attend the regular sessions with a further 60 expected for the first provincial conference of the youth division to be held Saturday.

Greetings from civic, labor and other groups will be heard during the concert Thursday evening.

Peter Prokopchuk representative from the national office of the association will attend the convention and will be guest speaker at the Friday evening session.

### PARKS BOARD PLAN TOUR

Alberta Parks Board is planning a tour of the Grande Prairie district next week.

J. H. Holloway, director of survey with the department of public works, Richard McDonald, director of cultural activity and Dan E. C. Campbell, tourist bureau director, will be members of the party, who will view potential park sites in the northern part of the province.

Mr. McDonald is also a member of the provincial library board and plans to make a brief library survey during the trip.

### First Freighter Reaches Yellowknife

First vessel of the summer season to reach Yellowknife, N.W.T., arrived Wednesday, E. W. Broderick, Northern Transportation Company manager, said here today.

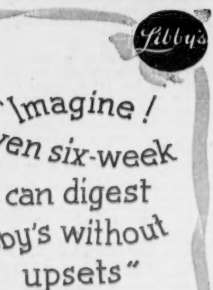

The vessel was the motorship "Radium King," captained by G. Garvie.

The boat carried 900 tons of freight from Fort Smith to Yellowknife.

### Oriental Committed To Supreme Court

Preliminary hearing for a Chinese rooming-house proprietor, charged with keeping a bawdy house, was held in police court Wednesday afternoon.

Too Lee Wong, 96 street rooming-house owner, was committed to supreme court for trial.

Yes, clinical tests prove that even a six-week-old baby can digest Libby's Baby Foods easily, without upsets.

The reason—because in preparing foods for your baby's inexperienced stomach, Libby's take an important extra step. After straining, Libby's Baby Foods are homogenized—rough fibres are pulverized, tough food cells are actually opened, the nourishment is released for immediate digestion. ## Tanner Heralds Committee For Gas Reserve Survey

A provincial committee, to study proven and potential gas reserves in Alberta, will be appointed soon, Hon. N. E. Tanner, minister of lands and mines said today.

The Hume report, compiled by Dr. G. S. Hume of Ottawa, head of the Dominion Geological Survey, and A. Ignatievich of the federal bureau of mines, was issued in Ottawa last week.

It showed "tremendous" gas reserves in the prairie provinces, particularly in Alberta.

These studies were begun to determine the availability of gas for export from the province's oil and gas fields.

A Winnipeg syndicate is seeking incorporation for the construction of a pipeline from Alberta fields to Winnipeg and intermediate points. The application has been opposed by the Alberta government.

A similar proposal from the Pacific coast last fall was met with an order-in-council from the Alberta government prohibiting the export of natural gas until it was learned if there was sufficient fuel to satisfy the province's present and future needs.

Policy of the Alberta government will "not be affected in any way" by the Hume report, Mr. Tanner said.

His statement follows: "This question is of such great importance to the citizens of Alberta that we are preparing to have a more detailed and complete survey made by a competent committee appointed by the provincial government."

"Besides studying the reserve, proven and potential, the committee will be required to make a above market prices."

### Headless Valley Expedition Taking Shape

Push-off date for the Nahanni Valley expedition headed by Jim Murphy of Albuquerque, N.M., has not yet been decided.

It was learned today that Mr. Murphy had been joined in Edmonton recently by Steve Bristol, also from New Mexico, who will be one of the members of the expedition.

A Canadian radio operator has been obtained and the expedition heads are proceeding slowly in selecting the rest of the personnel to go into the famous "Headless Valley."

Some difficulty is being experienced at the moment in obtaining radio equipment, but it is expected this will be solved soon.

It is expected that eight men will make up the party, and the trip will get under way some time within the next two weeks.

### Air Cadets Will Parade Saturday

Royal Canadian Air Cadets, No. 12 Squadron, precision squad, will parade Saturday, June 12, No. 5 hangar, at 4 p.m.

Full uniform including web belts, white flashes, garters will be worn.

This is a compulsory parade. Any cadets not able to attend are asked to contact P/L Stone at 2474, before 3 p.m. Friday.

## Top Quality Showerproof Fine Wool GABARDINE TOPCOATS

Tailored by Croydon

Here's a coat you can count on giving you years of satisfactory service.

A smart and dresy coat tailored by "Croydon" from smooth-finished super-quality fine wool showerproof gabardine in a grey-taupe shade. Styled as illustrated with fly-front fastening and slash pockets. Skeleton lined with twilled rayon. Sizes 34 to 44. Priced at **49.50**

## MEN'S SPORT JACKETS

Fine Wool Tweeds and Saxonomies

at **23.95 to 39.50**

The smart dresser's Summer wardrobe is built around a sport jacket or coat—complemented by contrasting trousers. It is his standby for all occasions when the business suit is ruled out. A favorite for sportswear and vacation travel. Tailored from plain and novelty wool tweeds and Saxonomies in shades of brown, grey and blue-grey. Two and three button, single-breasted styles. Sizes 34 to 44. Priced at **23.95 to 39.50**

## Men's Knitted Shorts

Cool, Summer weight knee length knitted shorts with elastic waist and cross-over support. Small, medium and large sizes. Priced at **1.25**

## Men's Fine Quality DRESS SHIRTS

"Arrow" ... "Forsyth" ... "Tooke"

at **4.00 to 6.25**

Three famous rival makes, so choose according to your own preference. Sanforized shrunk broadcloths and woven shirtings in plain shades and stripes. Fused collars. Sizes 14½ to 17. Priced at **4.00 to 6.25**.

## Men's Sleeveless PULLOVERS

Cool, sleeveless pullover sweaters in plain shades and check. Plain and cable knits in colors of beige, open, grey and brown. Sizes 36 to 44. Priced at **4.50 to 6.50**

## Men's Smart and Comfortable Footwear for All Occasions

At **8.50 to 10.00**

Styles to please all preferences... shoes for everyday service and vacation wear. Moccasin vamp styles of durable brown calf.

Oxfords in blucher and straight-lace of black and brown calf. Semi-brogues in several different styles. Sizes 6 to 12. Widths B to E. Priced at **8.50 to 10.00**

ESTD 1886 JOHNSTONE WALKER LIMITED

THOMPSON HEADS  
DAWSON BOARD

DAWSON CREEK, B.C., June 10. — The annual meeting of the Dawson Creek Junior Chamber of Commerce was held here recently in the Legion hall.

Selection of officers resulted in Mr. W. Lindsey becoming president; J. Thompson, vice-president; and E. Erickson, secretary-treasurer. Serving on the board of directors are E. Carberry, L. Hartman, J. Temple and J. Corbale. Mr. L. Jordan was appointed chairman of the membership committee. After the business was completed there was a showing of sports films.

Officers Inspect  
Mundare CadetsRCAF Boys Are Complimented  
For Ceremonial Drill Work

MUNDARE, June 10. — Mundare division of the Royal Canadian Air Force Cadets was inspected recently by Squadron Leader Peterson, Flight Lieutenant Ferguson and Mr. Mazes of the Alberta Cadet League. This was an annual inspection and the cadets put forth every effort to make this one of the best exhibitions of cadet work and airmanship since its formation five years ago.

Inspecting party was greeted and introduced by CO, W. Kwachuk, Mundare Squadron and F/S V. Novakowski and the civilian committee of the local squad. Members of the civilian committee were Pat O'Neil, Pat Mahoney, John Chervakowski, and D. Slobodian. The cadets marched past the saluting base in review order, then advancing to halt in front of the base.

The cadets were addressed by Edn. Ldr. Peterson who congratulated the boys on their good showings. He two of the cadets who have never had seen such a splendid display of ceremonial drill by outside points. He stated that the Mundare cadets stacked up to most major city squads in Alberta.

Pt. Ldr. Ferguson also said these boys were among the best in Alberta. Mr. Mazes also congratulated the boys and reminded them of the scholarships put up by the Cadet League and the "Royal Roads Scholarship."

The display of the general metal and woodwork projects were open to the public. The articles were made by all students in the 1947-48 term under the supervision of Louis Mayko.

New Norway Plans  
Annual Holiday

NEW NORWAY, June 10. — Dick Schell was elected president of the organization meeting for the annual sports day Monday night. Van Jeglum was named secretary-treasurer.

Bob Tronnes, Roi Malmoe and Jim Dittbrenner were selected for the baseball committee and H. Haldridge, J. Rhyason and J. Spooner elected to the advertising committee.

Other committees named were: small sports O. Bluck, C. Z. Schultz and Lola Sicksteal; grounds committee, A. H. Dittbrenner, H. Rasmussen and H. Sauvageau; concessions, George Heister, H. Durand and W. Dunlop; dances, J. C. Wells, Thos. Twelvetree, W. Mutchler, C. Holt, A. Persson, H. H. Dittbrenner; gales, C. DeRoos, Oscar Olstad and Albin Lindholm.

Wednesday, July 7 was chosen for the annual holiday.

RATEPAYERS FAVOR  
HOSPITAL ADDITION

OLDS, June 10. — Ratepayers of the town of Olds and rural area comprising the Olds Hospital District, Tuesday voted in favor of the plan to build a \$60,000 addition to the hospital. Opened just four years ago, the hospital already is inadequate.

Complete returns showed 426 approved and 27 opposed the extension bylaw.

The addition will provide a nurses' home, considered absolutely necessary, and will raise accommodation to 37 beds.

By Dick Turner

"Madam—I'm just the man your firm wants. I married off four homely daughters."

Cold Lake Missionary  
Is Oldest in Canada

By George Fraser

COLD LAKE, June 10. — His frame is permanently bent to the posture assumed when carrying a heavy pack over northern trails. Nevertheless with firm, springy stride the white haired, white bearded Father Jules Emile Teston, OMI, missionary extraordinary, walked down the aisle of a well filled community hall to the warm applause and acclaim of the people of Cold Lake. The occasion was the celebration May 16 of the vital old humanitarian's 93rd birthday.

Born in Southern France he finished his training at Lachine, Que., and passed through what is now Cold Lake for the first time, in the company of Father LeGoff in 1883. The interesting lake-pocked country between Cold Lake and Hudson's Bay, which he grew to love so well, then became the field for his missionary endeavors.

Snowshoes, dog-team and birch-bark canoe the young father learned to use and soon muskies became his bed. He adopted an orphan deaf mute Indian boy, 10 years old, who grew up to be a good guide, hunter and fisherman.

TWO IN MASSACRE — Two of his companion priests were killed during the Frog Lake massacre but Father Teston escaped contact with Big Bear's rebellious bands.

On 1897, near Meadow Lake, a Cree, George Mirasty, got caught and was badly crushed in a bear-trap of heavy log construction. For several days he lay—a broken leg and a terribly crushed arm pinned between the logs. Gangrene had developed in the arm and the native seemed near death.

## SURGERY A SUCCESS

The nearest doctor was at Battleford, 150 miles of trail, lake and portage distant. After setting the broken leg and binding it securely in splints the missionary then, with the few crude instruments and tools available amputated the arm at the elbow. Three years later Father Teston received a piece of moose meat from the grateful Mirasty who had learned to shoot with his left hand.

Two days' journey north of Prince Albert — Father Teston recollects arising one morning from his moss couch to find the tracks of a huge bear not more than 50 feet from where he slept, and his saddle-horse missing.

Months later the horse was found on a small elevation surrounded by uniform muskies. The vegetation on the island had been closely cropped by the animal which feared to venture off into the treacherous swamp. Signs on the ground indicated to the Indians that the horse had been pursued by the bear and frightened across the muskie. The pony had floundered over, but the heavy bear avoided crossing the bog.

NINETY-THREE CANDLES — At the gathering in honor of Father Teston at Cold Lake a huge

FATHER J. E. TESTON, OMI

birthday cake surmounted by an arch from which hung the gilded numerals 9 and 3 adorned the centre of the stage. Ninety-three candles all burning at once made quite some display. After a musical program under the direction of Father Godbout and Father Magan he was addressed in behalf of the hamlet and district by S. D. Lefebvre and Fabian Milaney.

The old missionary responded magnificently. For the moment 40 of the 93 years seemed to lift from his shoulders and as he spoke his appreciation of the gallantry, humor and expressiveness of old France was manifest.

Retired from active service by his superiors last year — the old missionary's sorrow and his reluctance to leave Cold Lake were so apparent that the order was cancelled, particularly in view of the fact that his health and faculties continued so good. Today at 90 Father Teston is the oldest Catholic missionary in Canada.

Andrew Spends  
\$3,000 On Streets

ANDREW, June 10. — Village of Andrew has expended well over \$3,000 on street improvements. The drainage problem is solved, and the Railroad and Second avenues are graded as well as Main street, Second and Third. Second street is turned into a boulevard.

The village has acquired an additional 10 acres on the west end of the town for recreation and sports grounds. About three blocks of sidewalk paving will soon be commenced by Mike Tomashevsky.

The mill rate for 1948 has been set at 12 mills for the village and 26 mills for the school.

Church Workers  
Honor Oldest  
Active Officer

MEDICINE HAT, June 10. — (CP) — Mrs. J. R. Verderet of Regina, 91-year-old, church worker who in 1915 presided over the first Medicine Hat conference of the Qu'Appelle Anglican Diocese Women's Auxiliary, Wednesday was honored as the oldest active officer of the conference.

Mrs. W. Cole of Regina, conference president, offered the delegates' congratulations and a gift. More than 100 delegates are attending the 46th annual meeting.

Veteran UFWA  
Holds Meeting

VETERAN, June 10. — Regular meeting of the UFWA was held on Friday afternoon at the home of Mrs. Frank Walker. There were 28 members and visitors. Before the meeting opened the ladies enjoyed a walk amongst the apple blossoms and lilacs and tulips.

Mrs. W. Armstrong was in the chair and various reports were given. Hints for travelling were very enlightening.

Pete Rennie has taken over the duties as buyer for the United Grain Growers here, replacing E. C. Sten.

Millet Ladies Aid  
Continues Work

MILLET, June 10. — Millet United Church Ladies' Aid held the June meeting on Thursday last at the home of Mrs. H. A. Pultcher with 13 present. Mrs. A. E. Pogue acted as chairman owing to the absence of Mrs. W. E. Wood.

Reports on the collection of funds for the renovation of the church were read. Motions for making articles for the fall bazaar was distributed. Following the business meeting, afternoon tea was served by the hostesses who were assisted by her daughter, Mrs. F. C. Hall.

Board To Sponsor  
Annual Sports Day

TWO HILLS, June 10. — Two Hills Board of Trade will sponsor the annual sports day here on July 12 at which \$500 will be given away in baseball prizes.

At a special meeting, members decided that the ball tournaments should all be played at one day since last year's two-day tournament was not very successful.

Metro Irons is president and Nicholas Mykiewich is secretary of the Board of Trade here.

RYE HEADS OUT  
IN ESTHER AREA

ESTHER, June 10. — Seeding operations have been practically completed in the Esther district and many farmers are half finished working their land for summerfall.

Crops of fall rye are heading out, but farmers are looking anxiously toward the sky for hints of rain. It is getting dry.

Mrs. Bruce Hall  
Named Convener

MILLET, June 10. — The AWI conference of the Stettler constituency was held in Estevan on June 1. Mrs. T. H. Howes, district director gave her address on institute affairs and also a talk on "Women and a Better Tomorrow."

Mrs. Heumann, retiring constituency convener was presented with a gift by members. Mrs. Bruce Hall of Botha will be the new convener.

Miss Mewha, district home economist acted as handicraft judge for the excellent handicraft display. Nine institutes were represented.

Safeways Given  
\$20,000 Damages

WINNIPEG, June 10. — (CP) — Manitoba court of appeal yesterday awarded the Safeways, Ltd., grocery chain \$20,000 and costs in an appeal of a libel action against Stuart Harris, owner and publisher of the Canadian Consumer magazine. The magazine is published in Winnipeg.

Harris had appealed on May 17 against an award of \$20,000 and costs and this appeal was dismissed. The company lodged a cross appeal claiming that damages were inadequate.

The articles appeared over a period of six months.

British Surgeons  
Visiting Dominion

TORONTO, June 10. — (CP) — Twenty-eight British orthopaedic surgeons yesterday visited Toronto on a tour during which they plan to exchange ideas with Canadian specialists. They divided the day between discussing cases with local doctors and visiting district hospitals.

## Esther Wedding

ESTHER, June 10. — Miss Jeanette Bodnaruk and Fred Senkiewicz were married recently at the home of the bride's parents, Mr. and Mrs. Sam Bodnaruk of Cappan, Alberta.

A wedding dance was held in the IOOF hall at Lovena in honor of the happy couple who will reside on the groom's farm near Lovena.

Store Hours:  
9:30 a.m. to  
5:30 p.m.

Fifteen Graduate  
At Dawson Creek

DAWSON CREEK, B.C., June 10. — Fifteen students graduated from the Notre Dame commercial class here recently. Four of the graduates: Jane Gillie, Rose Rivers, June Priestly, Bonanza; Gwenne Lindgaard, Pouce Coupe, and Marilyn Young, Dawson Creek, received honor certificates, having attained a mark of over 90 per cent for the term.

Among the speakers at the graduation exercises were: Mr. Morrell, government agent at Pouce Coupe, who presented the students with their diplomas; W. Scales, village engineer; W. A. McLeish, president of the Senior Chamber of Commerce; Father Gillen, CSR; Mr. Sprinkling, principal of the Dawson Creek high school; and Miss K. Read of the Peace River Health Unit.

Most of the graduates already have obtained employment.

Fire Destroys  
Kaleland Store

TWO HILLS, June 10. — Fire completely destroyed a grocery and confectionery store at Kaleland recently. Kaleland is a hamlet five miles west of here. Sam, Rubyk, proprietor, estimated damage at \$3,000, most of which was covered by insurance.

FOR  
INNER CLEANLINESS

Are you one of those persons who is not careful about having their two pieces of white flow from the liver to the bowels every day? Lack of bile causes constipation, indigestion, loss of energy, that sluggish feeling, those bad dreams, nervousness, and a host of other ailments. These natural, non-habit-forming capsules are found in Dr. Morse's Pills. Get a box today to help relieve constipation, give you that inner cleanliness, and keep you healthy.

Various suitable sizes and designs to match above tea service. At Woodward's  
**\$6.95 to \$26.00**

**Cold Water Pitchers**  
Attractively designed and silverplated. At Woodward's  
**\$6.95 and \$7.95**  
Woodward's Silverware Section, Fourth Floor

## Miner Tiffs With Top Legalites in Commons

By John Leblanc

OTTAWA, June 10.—(CP)—A coal miner yesterday took on the head of the Canadian Bar Association and a distinguished criminal lawyer in a Commons battle over the quality of Canadian justice.

With entranced members eyeing the participants on to new heights of rhetoric, the house heard:

Clare Gillis, the CCF miner-legislator who represents Cape Breton South, said bluntly that Canadians get just about the amount of justice they can buy.

John T. Hackett (PC-Stanstead), bar association president, told Gillis he had lost the right to tell him "honest and honorable men."

**DEFENSES PROFESSION**  
John Diefenbaker (PC-Lake Centre), noted criminal lawyer, hark back through the centuries in defense of his profession and advise the government to keep the judiciary out of the "cockpit of politics."

Hackett, his shaggy grey thatch tossed in a storm of fury, attacked the Cape Bretoner of ignorance, bitterness and falsehood.

Gillis drew down the wrath of the bar by an attack on the country's magistrate system during discussion of Justice Minister Iles's estimates.

He wanted "sane and sensible" people as magistrates. No self-respecting lawyers wanted the job under present conditions. In many cases, they went to local civic politicians with practically no law training and often little judgment.

Of the administration of justice generally, he found there was "too much manipulation."

**"NOT ENOUGH HONESTY"**  
"There is not enough honesty in it," he declared.

To a chorus of dissent from members, Gillis replied:

"You can say 'No' as much as you like. When I hear a man stand up to the house, particularly a member of the legal profession, and say that even he has his day in court in this country and that there is justice for all, I am going to make this statement without reservation."

You are pretty much in the same position when you face the courts of this country as you are when you go out seeking medical attention. You will get as much as you are able to pay for."

## FLOOD BRINGS GHOST TOWN TO LIFE AGAIN

VANCOUVER, June 10.—(CP)—The 100-year-old frontier town of Hope, B.C., is now the transportation hub of the province.

After almost a century of dignified anonymity, the ghost town of 2,200 now is busier than it was in the mad days of the 1858 gold rush.

After an 11-day break, railway connections with Calgary and the east have been re-established, with Hope as a west-coast railhead, from which passengers take buses for the remaining 100 miles to Vancouver.

The disruption, longest in British Columbia's history, has catapulted the little wayside station to national prominence.

Jimmy Vipond, who for years has run his Canadian Pacific station with no help at all, has taken all this in his stride. With a special staff of 30 he supervises the complicated terminal operations normally carried out in Vancouver.

So handy

Another Fine Robin Hood Product!

## You Too Can Make a GRAND CAKE

VELVET CAKE FLOUR is the wonderful new, extra fancy flour that's super-milled by an exclusive process which retains only the choicest part of the wheat and sifts it through more than three times the usual number of flour sifls.

VELVET is the very finest of cake flours. It is sold with this guarantee: Your money will be cheerfully refunded by your grocer if, after baking with VELVET, you are not thoroughly satisfied. VELVET is guaranteed to equal or surpass any other cake flour on the market.

Order a box of VELVET CAKE FLOUR to-day, and try the new quick-mix ONE-BOWL VELVET RECIPES. Be sure you use only VELVET CAKE FLOUR for the exciting VELVET recipes you'll find on the package and in the box. VELVET is a special kind of soft wheat flour milled to a high cake flour standard, and the quantities and methods have been developed especially for VELVET CAKE FLOUR.

**NEW AT YOUR GROCERS**

## Showers Bring New Hope To Forest Fire Fighters

TORONTO, June 10.—(CP)—Thunderstorms were forecast for the fire-swept sections of northern Ontario today but firefighters expressed doubt whether the expected downpour would be heavy enough to help appreciably. The Chapleau and Missisagi fires remained the hot spots of the Ontario situation.

In Quebec, fires continued on the rampage from the Maniwaki region north of Ottawa to the Lake St. John district. The fire situation forced suspension of operation of pulpwood camps and sawmills in the north eastern section of Ontario. It was estimated more than 4,000 bush workers were thrown out of work temporarily.

As fire crews strove to cope with spreading outbreaks, the Canadian Forestry Association reported that fires so far this year in Ontario and Quebec had destroyed an estimated \$5,000,000 of forest wealth.

Near Rouyn in the Quebec fire area the gold mining village of Belleterre was declared out of danger with a fire stopped three-birch and other species of timber miles from its outskirts. Spruce were destroyed in four townships 30 miles south of Rouyn.

## Suspected Murderer May Have Drowned

PENTICTON, B.C., June 10.—(CP)—Robert D. Mutch, 52-year-old fruit rancher, sought in the slaying of his wife and two sons, may have ended his life in Skeha Lake, police reported today.

Searchers found his automobile on the lake shore, three miles from the Kaleden ranch home where Mrs. Mutch and her sons were killed Wednesday.

A warrant charging Mutch with murder was issued by B.C. provincial police today as officers started search of the lake district. The mother and her sons were bludgeoned and burned from fires started in the mattresses of their beds. Police believed blows from an iron bar killed them.

A daughter, Yvonne, 20, is in hospital here, still in a critical condition. She had head wounds and burns.

## 'Decay' in U.S. Combat Power

DETROIT, June 10.—(AP)—Gen Omar Bradley spoke last night of an "appalling decay" in the United States army's "combat capabilities and urged an 'immediate repair'."

The Army chief of staff told the American Ordnance Association he expressed himself in the light of developments in Europe which have involved the United States in a struggle "where power has once again become the arbiter of decision."

**AIR FORCE WEAK**  
Bradley was joined in his criticism of United States preparedness by Gen. Joseph McNarney, chief of the air force.

If war occurred today, McNarney said, "the air force combat groups would be composed primarily of planes that were on the drawing boards prior to Pearl Harbor."

McNarney, commanding general of the Air Materiel Command, said several years would be required to tool up for proper production because of the "weakened state" of the aviation industry.

Bradley said he was "dismayed" by recent events despite "generous aid" from the United States in relief and reconstruction for Europe.

**MUST BE ARMED**  
"Therefore," he said, "even as we continue to strain toward peace through justice, even as we subscribe to United Nations with the full force of our convictions, we are left with no present-day choice but to arm ourselves if we are to champion its principles as our own."

**Winspear Off For England**

Francis G. Winspear, CA, president of the Edmonton Chamber of Commerce, is leaving on June 17 to visit Britain.

He will fly from Montreal and expects to arrive in England on June 23.

While there he will confer with Board of Trade and Chamber of Commerce officials, and also transact private business.

He expects to return to Edmonton early in July.

**Rabbi-Author Dies**  
BOSTON, June 10.—(AP)—Rabbi Joshua Loth Liebman, 41, author of the best-seller, "Peace of Mind," died yesterday. He had been ill with grippe since Sunday and suffered a heart attack Wednesday afternoon.

## Policemen, Strikers Injured In Rioting

PARIS, June 10.—(Reuters)—Four policemen and several demonstrators were injured when strikers attacking a Communist meeting clashed with police and Republican guards at Clermont-Ferrand, central France, last night. Workers are on strike for higher wages in several of the town's factories.

## Farms Need Early Rain

Early rain would be beneficial to Alberta crops in most areas according to a crop report issued today by the Alberta department of agriculture.

"Soil moisture supplies are generally fair to good, but surface drying is reported from many districts," it is explained.

Height of wheat is estimated to be from one to six inches with wheat seeding "practically completed" in the east half of the province and the Peace River district. In other areas it is expected wheat seeding will be finished this week.

Coarse grain is being seeded as rapidly as possible. It is estimated most of the crop will be in the ground by June 30.

Hay crop prospects are "excellent" the report says.

Conditions in livestock and dairy industries are greatly improved with the cattle now able to graze on pasture lands, the report concludes.

## City Man Attends Ontario Meeting

Don McKay, acting executive secretary, Edmonton Chamber of Commerce, will attend the second annual session of the Canadian Institute for Board and Chamber secretaries at McMaster University Hamilton, June 13 to 19.

Delegates to the session will discuss problems encountered by local secretaries of Chambers of Commerce and Boards of Trade.

Special attention will be given to a study of public relations with three well-known Canadians speaking on this subject.

Lectures will be delivered on such other fundamental subjects as organization, civic activities, agricultural activities, radio publicity, national affairs, industrial activities, finance, tourist activities and employee relations.

## Calder 'Teens' Are Blamed As Vandals

Teen-aged vandals are believed responsible for extensive damage to Calder Community League clubhouse, according to police today.

A Calder resident phoned police Wednesday night, stating that he saw three teen-aged youths smashing windows in the Community League clubhouse.

The clubhouse is a prefabricated hut.

Forty windows in the building were found broken when police arrived.

The resident told police he saw the three youths ride away on bicycles after they had broken the windows.

Police searched the neighborhood but failed to locate the culprits.

## Union Leader Held in Strike

TORONTO, June 10.—(CP)—Joe Sullivan, Canadian Seamen's Union organizer, was arrested today following a scuffle between pickets and police on the waterfront. He will be charged with obstructing police.

Police said the struggle started when CSU pickets, led by Sullivan, attempted to board the tender John Irwin after a crew from the rival Canadian Lake Seamen's Union had gone aboard under police escort.

The CSU crew walked off Sunday morning with the strike called against five shipping companies.

Police said Sullivan attempted to force his way onto private property in an effort to reach the vessel's side, pushing a constable.

## Social Credit 'Rebel' Expelled From Party

REGINA, June 10.—(CP)—that year the Saskatchewan Social Credit League stopped the Liberal party doing this.

"Now it would appear that Liberal money is being used in an endeavor to keep Social Credit candidates from running."

Dr. Haldeman said the party was faced with a concerted drive "which is apparently backed by the Liberal party" to have Social Credit candidates withdraw in favor of "Liberal or fusion candidates."

"Up to the election in 1944 it was well known in this province that Liberal money was being used to put in Social Credit candidates as 'dark horses,'" he said in a radio address over a Regina station. "In

HAMILTON, June 10.—(CP)—Dr. Stewart Jaffray, director of the Toronto School of Social Work, yesterday was elected president of the Canadian Association of Social Workers at its biennial meeting here.

## WITH THE FARMER

Idaho Seed Men  
Praise Local Spuds

By Ted Horton

A car-load of Alberta Nettle seed potatoes, sent to Idaho from the farm of E. C. Acorn of Peers, were enthusiastically received in Twin Falls.

The shipment arrived in Twin Falls about a month ago. F. H. Adams, manager of the Idaho Growers Association, declared they were the "best potatoes I have ever seen." He was speaking after 40 years experience in the growing business.

He said he had discovered the Nettle seed spud on a trip to Canada three years ago, where they were then being grown on a Dominion government experimental farm.

Experiments in the growing of spud lots had been conducted since that time, but the 45,000 pound shipment which had just arrived was the first extensive growing to be undertaken.

J. H. Standley, the rancher who is making the experiment on his farm, says the fate of the \$3,000 he is putting up, rests on the manner in which the Alberta-grown potatoes resist potato diseases common in Idaho.

Albertans will be able to offer their American brethren the assurance that the Nettle Gem is a high-quality table potato.

The Central Alberta Dairy Pool is holding its annual meeting at Lethbridge on June 15 and on June 17, the Southern Alberta dairy co-operators will meet at Calgary.

Foodstuffs are said to make the major contribution to the rise in the general cost-of-living index to 153.3 to May 1st this year. In fact, costs of the products of the farm have shown an upswing of more than 80 points.

Which brings up another point—how about oleomargarine? One farm leader, who will not be named, said the majority of farmers "gave a hee!" one way or the other about margarine.

It was admitted the dairy industry—those farmers particularly concerned with production of cream—were concerned about it and the suggestion was made these men had formed a "pressure group."

A prominent radio commentator in Edmonton had been barred from the air because he made the legalization of the manufacture in Canada of oleomargarine, it was alleged.

No one can deny butter is expensive and makes a very considerable contribution to the cost in living costs.

Secreds to Nominate  
In Two South Ridings

Social Credit provincial nominating conventions have been arranged for two southern constituencies represented by cabinet ministers. It was learned today.

On June 23, Social Credit electors for the Acadia-Coronation constituency will name a candidate. The seat is now held by Hon. C. E. Gerhart, minister of municipal affairs and provincial secretary.

It is expected Mr. Gerhart will be re-nominated.

A Social Credit convention has been called in the Cardston constituency for June 28.

Hon. N. E. Tanner, minister of lands and mines, is now member for that riding.

A convention may also be called before the end of the month in the

Accident Victim  
Loses Arm

Eliot Lavole, 12068 81 street, Saturday night auto collision victim, had his left arm amputated Tuesday, according to hospital officials Wednesday.

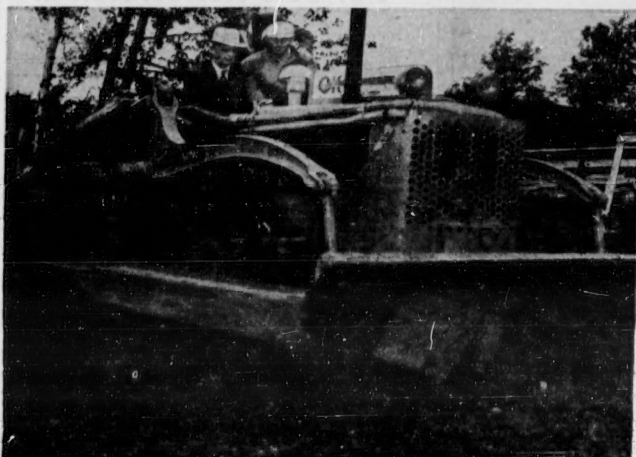

Lavole is in the Royal Alexandra hospital following a collision on the Port Road Saturday night.

His condition was described as "fairly serious" by hospital officials today.

No charges have been laid to date, according to police today.

## OUR PARTY LINE—

Listening in on a party line may not be polite—but if you listen in on our inter-department phone system you'll learn that here is a team working for nothing else but customer satisfaction.

DOMINION  
MOTORS LTD.FORD-MONARCH CARS AND TRUCKS  
107 ST. & JASPER AVE.

—Photo by Ross

Work On Blind Centre  
Gets Underway in CityPOWER BREAK  
THROWS SCARE  
AT PASSENGERS

Fourteen street-car passengers received the scare of their lives at 3 p.m. Wednesday, when the power line snapped at the south end of the High Level bridge.

The south-bound red and green car had barely crossed the bridge when the accident occurred.

Immediately, a tremendous shower of sparks came from the front of the car, where the broken power line, carrying 550 volts, was making contact.

Frightened passengers bolted out of the rear door of the street car to escape the sparks and clouds of smoke.

Danger of any serious mishap was averted when the motorman anchored the wildly swinging line to the ground, and extinguished the small fire which had been started by the sparks.

Speedy repair work enabled traffic to get under way again, after a delay of only half an hour.

May Near  
To Normal  
For Heat

Hot weather for the last two weeks of May brought the monthly temperature average to near normal.

Cool wet weather before May 19 was compensated for by above normal temperatures during the latter part of the month.

Prevailing winds, instead of being from the northwest as is usual, were from the southeast.

There were three thunder storms during the month.

Highest temperature during May was 81.2 on May 21, and lowest was 34.4 on the 13th.

Over the month, Edmontonians were robbed of 21 hours of sunshine, old Sol deviating by that much from the normal of 264.7 hours.

May 14 was the windiest day of the month, capturing the title for maximum speed maintained for an hour (30 mph.), maximum speed for ten minutes (33 miles per hour), and having gusts up to 48 miles per hour.

Red Cross officials in Edmonton are seeking two persons.

Otto Schultz, Germany, is enquiring for the whereabouts of Sara Biemer whose last known address was Edmonton, and Martha Fritz, Germany, is seeking her cousin, Robert Kreitlow, Edmonton.

Building of Northern Alberta's service and recreational centre for the blind is underway.

Work officially got under way Wednesday afternoon when Mayor Harry Ainlay, and officials of the Canadian National Institute for the Blind, gathered for the bull-dozing of the basement site.

Objective of many years' efforts, the new centre, being built at a cost of \$165,000, will serve the blind of Northern Alberta as a training and rehabilitation centre, a recreational centre, and will also provide living quarters for at least 30 blind persons.

Administration headquarters for the CNIB will also be located in the building.

Being built in the shape of a T, the building will measure 154 feet long along Jasper avenue and have a depth of 77 feet along 130 avenue. It is located on the northwest corner of the intersection, on land made available by the city.

It will be a three-storey steel-framed building of brick and concrete construction. The exterior finish will be of corrugated brick, capped with stone.

Main entrances and the lounge will be lined with artificial stone while the rest of the interior finish will be of plaster.

Keeping in mind the needs of the blind persons who will be using the building, architect Noel McKernan designed the interior layout to be as simple as possible.

Rooms and halls are being built without obstructions of any description. Even the door and window frames are being built flush with the wall and rounded to prevent injuries. All doors are being made self-closing.

Plans for the building conform with those for other blind buildings in the city, and are sufficiently flexible to permit easy extension to the north.

Main contractor for the building is the Bennett and White Construction Company. Contract for the electrical work has been let to the Hiltz Electric Company and for the plumbing work to J. W. Mould and Son.

Grading fund of the Northern Alberta Branch of the CNIB now stands at \$139,000—\$83,000 from the campaign conducted last February, and \$56,000 from previous contributions.

Red Cross officials in Edmonton are seeking two persons.

Otto Schultz, Germany, is enquiring for the whereabouts of Sara Biemer whose last known address was Edmonton, and Martha Fritz, Germany, is seeking her cousin, Robert Kreitlow, Edmonton.

No Attempt Made  
To Halt Probe—MillerWitness Says Letter Only  
Intended as Information

A circular letter, sent out to Alberta municipalities by department of public welfare when the IODE started its survey of welfare conditions, was not aimed at stopping the survey.

Alexander H. Miller, deputy minister of department of public welfare, said that the letter was only intended to inform officers that welfare files were not available for inspection without consent of the cabinet minister.

Mr. Miller was testifying for the first time at Wednesday's sitting of the Royal Commission appointed to investigate child welfare conditions in Alberta.

"The letter was only sent out to draw attention to section 69 of the welfare act," Mr. Miller stated under cross examination by E. D. Arnold, Calgary Herald counsel.

"It was the duty of the government to draw attention to the fact that these files were not available without the consent of the minister."

Mr. Miller also said: "Any organization is free to make any survey it wishes, but when it comes to private files, it is our responsibility."

Earlier Charles B. Hill, Alberta welfare superintendent, who was on the stand before the latest 10-day adjournment, stepped down after being cross-examined by Mr. Arnold.

Answering charges that he cannot handle an executive position and adoption cases Mr. Hill said: "My work is administrative and executive. No placements I make are done in my own spare time. I do it on holidays and Saturdays because I like to do it. We have two placement officers."

"Previous to 1944, I had to approve all child placements," Mr. Hill said.

Then the picture changed, the welfare superintendent said, and with new people coming in, he still had to keep up the work until they were trained by himself.

"In the last year I have done very little of this. I delegate these jobs to girls, but first I had to train them."

Answering further charges that boys placed on farms often run away and commit offences before

and after leaving the farm, Mr. Hill said:

"I can show you dozens of boys who have made good on the farm. Wherever there is any trouble, the boys have usually been tried by probation officers first, but if I get them on their first offence, I can usually do something for them."

Mr. Hill will likely return to the stand next Tuesday for cross-examination under George H. Street, counsel for IODE.

Immediate construction of the Trans-Canada Highway was asked in a resolution passed Wednesday by the Alberta Hotel Association.

The 27th annual convention of the association concluded Wednesday with delegates setting Calgary as the venue of the 1949 annual meeting.

Regional directors elected were A. L. Ueh, Rocky Mountain House; E. G. Goodridge, Red Deer; A. J. Dupen, Lethbridge; J. R. Bell, Peace River; H. G. Curlett, Peace River; J. Blake, Hinton; R. Chiquette, Edmonton; C. Bray, Tofield.

Earlier in the convention George

WILD RIDE  
ENDS IN FINE

A driver who crashed into the rear of another car, jumped a curb, and ended up on a bicycle stand appeared in police court Wednesday.

Charged with dangerous driving, Matt Hedley, 11004 55 street, was fined \$40 and costs or two months in jail.

He pleaded guilty to the charge.

According to evidence given by Constable Martin Orsel, Hedley, driving east on 111 avenue near 95 street, struck a car, and then, on coming car, driven by Harold LeMasurier, 10617 126 street, about 9:45 p.m. Tuesday.

Hedley continued for two blocks until he ran over a curb and was stopped by the bicycle stand.

Clerk Seeks \$25,816 Damages Damages totaling \$25,816 are sought in a supreme court action filed Wednesday by P. J. Lazarovich, K.C., on behalf of John C. Noonan, city sales clerk.

Defendants to the action are Leonard R. Crawford, driver, and Davies Taxi Co.

The action arises out of an accident on June 25, 1947, on 97 street and 106 avenue, between a truck owned by John Ferguson and a taxi owned by the Davies Taxi Co., and driven by Crawford.

It is alleged, in the statement of claim, that Noonan was riding in the body of the truck at the time of the accident, received permanent scars and injuries in the accident.

A brother of Fedeulni was killed in the accident.

## SHOPPING GUIDE

## No Sunday Milkman After Summer Season

By Bea Thrifty  
Milkman keep those bottles quiet!  
But this apparently won't be heard in the early Sunday mornas come the fall season.  
From all indications the city milkmen will be free men Sundays once the summer is over and done with.  
"It's only fair enough. Why should the milkman work on Sundays any more than the rest of us?"

In some stores frozen cantaloupe cubes sell for 35c a carton—and in others—for two for 35c. Can't understand this.  
Must be slight discrepancy somewhere.  
Able! Nectar of the Gods! Pine-apple juice—and low selling at a vast reduction from a month or two ago—32c for a tin of Australian pineapple.

Huzzah! And it's a gigantic sale of the famous Heinz products that the stores are after having.  
"It's a fine thing—always tops in their own fields."  
They have a new condensed bean soup—a hearty, tasty dish that appeals to the palate.

The world of fashion needn't be a world of extravagance. Take, for example, the smartie trick that ingenious gal can do with a yard or two of ribbon.  
Re-style last year's formal by cutting off the straps or sleeves, boning it to stay up, and then tie a wide ribbon, floral, plaid or plain, around the shoulders—a la fachu—and have it end in a huge bow in the back.

Or—find one of those large military buckles and pull the ends of a strip of tartan ribbon (wide) through it for a smart-as-a-whip belt.

Oh mother—not horrid of boiled carrots against Junior be singing this song frequently these past few months when fresh vegetables are so hard to get and expensive to buy.

For a strictly dress-up idea for the same old carrots—try carrots au gratin.  
Make a cream sauce; add ½ cup grated cheese, ¼ teaspoon paprika, one tablespoon minced onion.

Pour this over about two cups diced, cooked carrots. Place in baking dish and cover with buttered crumbs. Bake in a moderate oven for 25 minutes—serve piping hot to four or five people.

Sun-happy cotton frocks are apparently in plentiful supply. But when it comes right down to finding just the right one to fit your figure, your purse and the rest of your wardrobe—it's more of a problem than we'd like to see.

On the whole—styles are smart—materials crisp—colors gay—prices higher.  
One place this austerity regime has really hit with a terrific wham—is the picture framing business.  
It will cost you at least twice as much as last year to get those beautiful, elaborate frames, those artistically blended mats.  
But what can we do—we poor peasants?

Saw a simply lush hat on a young woman today—asked her where she got it—and she said she made it herself... with a \$150 hat form and \$10 worth of artificial flowers... clever, what!

## Patterns

By Anne Adams

Ruffly separates... a gay outfit.  
Peasant blouse Pattern 4521, Jr. Miss sizes 11, 13, 15, 17. Size 13, 25 in. 35-in. Pattern 25 cents.  
Dirndl skirt and petticoat Pattern 4758, Jr. Miss waist sizes 25 to 29. Size 26 skirt 2½ yds. 35-in. petticoat, 1½ yds. Pattern 25 cents.  
These patterns, easy to use, simple to sew, are tested for fit. Include complete illustrated instructions.  
Send twenty-five cents (25c) in coins (stamps cannot be accepted) for each pattern (50c for both). Print plainly size, name, address, style number.  
Send your order to The Edmonton Bulletin, Pattern Department, 60 Front Street, W., Toronto 1, Ont. Please allow a week or ten days for delivery.

## DOROTHY DIX SAYS—

## Unwise Brides Quote Mama to Husbands

If I could give one piece of advice to a bride more earnest than any other, it would be:

Never quote your mother's opinion to your husband. Listen to it if you must. Act upon it if you will.

But don't ever be dumb enough to throw what "Mother says" in your husband's teeth, unless you are marrying with one eye on the divorce court.

Mother may be a female Solomon. She may be a wizard who can spread a dollar bill over ten dollars' worth of merchandise.

She may be a born executive. She may know all the answers and be a hundred times more competent to manage a bride couple's affairs than they are.

It doesn't matter whether Mother is right or wrong, silly or wise, the one thing that no young husband can take lying down is for his wife to set Mother up as the family oracle, and the minute the starchy-eyed bride begins telling Friend Husband that Mother says we should do this, or she shouldn't do that, that instant another marriage is headed for the rocks.

Probably no other domestic situation is fraught with such danger as that in which Mother begins dishing out advice to the newlyweds.

For she is rushing in where angels fear to tread, and if she doesn't succeed in messing up her children's marriages, it is a miracle.

UNINTENTIONAL.  
Not that Mother is deliberately a home-wrecker. Not at all. She is horrified when Sally or Susan quarrels with her husband and comes back home with the baby, and she would deny it bitterly if accused of having been firing her shot from behind the curtain.

Many a wife loses her taste for her husband as the hero of her girlish dreams until Mama comes along and begins stripping him from him until she doesn't leave him with a single attraction that a wife can hang her love on.

Many a woman would never find out that her husband is just a plain business man, the son of a romantic Fairy Prince, if her mother didn't point out his defects to her.

Many a wife loses her taste for

FISH TREATS fill protein needs. Friday salmon pie—a main dish with lots of protein—is inexpensive and tasty.

## Variety in Menus With Meat Alternates

Don't let your menus get "meat-monotonous." Fish, cheese and eggs are good meat alternates, furnishing good quality protein and other important food elements.

Variety and new interest are added to the menu by using these foods in clever casserole dishes or combined with other foods in different ways to make really delicious entrees that your family will love to eat.

Here are some new ways to prepare these familiar foods:

**Bake Fish Molds—Individual**  
3 cups corn flakes, 1½ cups milk, 2 tablespoons mayonnaise, 2 tablespoons chopped parsley, 1½ tablespoons minced onion, 2 tablespoons lemon juice, ¼ teaspoon thyme, 1½ teaspoon salt, dash pepper, 2 eggs, well-beaten, 2 cups flaked cooked fish or 1 pound can.  
Crush corn flakes into fine crumbs; combine with milk. Add mayonnaise, parsley, onion, lemon juice, and seasonings; mix well. Stir in eggs and fish. Pour into well-greased individual molds or muffin tins. Bake in moderate oven (375 degrees F.) about 45 minutes. Unmold onto hot platter.  
Yield: 8-8 servings.

**Rice and Cheese Casserole**  
2 eggs, 3 cups cooked rice, ¼ cup uncooked, 1½ cups grated cheddar cheese, ½ cup milk, ¼ teaspoon salt, dash of cayenne, 1 teaspoon Worcestershire Sauce, 1 cup corn flakes, 2 tablespoons melted butter.  
Beat eggs slightly; combine with cooked rice, cheese, milk and seasonings. Mix well; turn into greased casserole. Crush corn flakes into fine crumbs and mix with melted butter; sprinkle over rice. Bake in moderate oven (350 degrees F.) about 30 minutes. Serve with tomato sauce if desired.  
Yield: 6-6 servings (1½ quart casserole).

**Friday Salmon Pie (Serves 6)**  
¼ cup rice  
1 quart boiling water  
2 teaspoons salt  
2 tablespoons chopped parsley  
4 tablespoons fat  
4 tablespoons flour  
2 cups milk  
1 teaspoon salt  
¼ teaspoon pepper  
¼ teaspoon celery salt  
¼ teaspoon nutmeg  
2 tablespoons lemon juice  
1 cup grated cheese  
1 can salmon, flaked  
Cook rice until soft in one quart boiling water to which 2 teaspoons salt have been added. After draining rice, mix with chopped parsley and pour into well-greased, heat-resistant glass baking dish, two quart size.  
Melt fat in 4 tablespoons flour. Stir in milk gradually. Cook for about 20 minutes until thick and no starchy taste remains.  
Remove from heat and add one teaspoon salt, pepper, celery salt, nutmeg, lemon juice and grated cheese.  
Stir until cheese is melted. Add flaked salmon to sauce. Pour over rice in baking dish.  
Crust: Four favorite pastry recipe. Roll out pastry on a lightly floured board to about ¼-inch thickness. Make slits in crust for escape of steam.  
Place crust on top of salmon mixture in baking dish and press edge of crust to dish.  
Bake in moderately hot oven (425 degrees F.) for about 30 minutes.

Combine the high grade protein of meat with the less valuable but chubbier proteins of potatoes and you get combined protein with high value.  
Meat-potatoesburgers (4 generous servings)  
Three-quarters pound ground beef  
½ cup ground or coarsely grated raw potato.  
½ cup ground or grated onion.  
2 tablespoons chopped green pepper.  
1 teaspoon salt.  
1 egg, drippings or other fat.  
1 cup tomato juice or puree.  
1 tablespoon flour.  
Mix all ingredients except fat, tomato juice and flour. Form into 4 or 5 flat cakes. Brown cakes on both sides in fat in a frying pan. Add tomato juice, cover and simmer slowly until done—about 25 minutes.

**Remove cakes and keep hot. Mix flour with a little water and stir slowly into tomato juice. Cook slowly, stirring constantly until thickened. Pour sauce over cakes.**

**Remove cakes and keep hot. Mix flour with a little water and stir slowly into tomato juice. Cook slowly, stirring constantly until thickened. Pour sauce over cakes.**

**Remove cakes and keep hot. Mix flour with a little water and stir slowly into tomato juice. Cook slowly, stirring constantly until thickened. Pour sauce over cakes.**

**Remove cakes and keep hot. Mix flour with a little water and stir slowly into tomato juice. Cook slowly, stirring constantly until thickened. Pour sauce over cakes.**

## YOUR BABY AND MINE

## Spanking Not Cure For All Misbehaviour

By Myrtle Meyer Eldred  
No one wants to be considered a fanatic upon any subject and I am certainly not one who thinks in extremes.  
When I deplore the spanking of children, it is because there is too much of it and not enough trial and error to discover if other ways may work more successfully.

Fathers, in my experience with them, have a perfect mania for spanking. The moment a child annoys them, then on with the hands and no more nonsense. If this worked, there might be some sense to it, but some of the worst incorrigibles are also some of the most frequently spanked children. So, it can't possibly be a cure-all for misbehavior; and any thinking parent knows that it makes some children want to thwart their parents, even if they pay for it painfully.

If parents would let down each misbehaving act of the child, without they did and then evaluate honestly how it worked, they would not be so confident of all their methods of treatment. They would have to admit that despite the spanking the child returned to the spot to which he was forbidden (and spanked for going) or he touched the forbidden objects again. He continued to wet and soil himself (if he is too young for control) and he had accidents, ran about wildly and noisily, teased for what he shouldn't have, just as if he hadn't been spanked over and over for such behavior. Spanking merely makes the parent feel that she is doing SOMETHING about it, never mind what.

The fact is that children are children, punishment or no, and they do act in ways that disturb, annoy or anger the parents all the time they are in the process of growing up.

My reaction against spanking is a natural one. I had one spanking at 2½ years for running away and not another during my whole life—nor slapping either. I managed my own children with about that same record. My grandchildren got some slaps and spanks on buttocks occasionally, but of a very trivial, not painful type. Just a gesture, not a really painful hit.

So, let us say that a good parent who loves her child—and shows it—who is pleasant, understanding and just—can spank a child in such a spirit and do no harm. The child still feels the security of his loved position in the family.

But, that dependence on spanking, which leads to those horrifying lengths to which some parents will go to try to make a child do as they say, is a very weak reed to lean upon. It hasn't even since the days and words of Solomon ever led to any magical cures for misbehavior.

Our leaflet, No. 73, "Obedience and Punishment," may be had by sending a stamped, self-addressed envelope with your request to Myrtle Meyer Eldred, in care of this newspaper.

Tomorrow: "Look, Ponder and Learn Together."

BRIDGE  
Called Lead Ups  
This Slam Contract

By William E. McKenney

In tournament bridge it is not permitted to waive a penalty if a player commits an infraction such as leading out of turn or revoking. It is required that the tournament director be called because of the effect that the infraction may have on the balance of the field.

In today's hand South was using the two diamond club which requires his partner to show ace. Therefore North's three club bid simply showed the ace of clubs.

Lesson Hand—Both vul  
South West North East  
1 ♠ Pass 3 ♠ Pass 3 ♠ Pass  
2 ♠ Pass 3 ♠ Pass 3 ♠ Pass  
Opening—4 ♠ 10

The three heart bid by South was an asking bid, and North's response showed the king of hearts. So all South had to do was to bid seven spades.

At this point East led the king of diamonds out of turn. The tournament director called, and he explained the rule. The king of diamonds could be treated as a penalty card, which means that it would have to be left face up on the table and play would be continued.

Instead of leaving cards like most clubs, the rulebook forbids their being played.

OTTAWA, June 9.—(UPI)—Justice Minister Harry Laidlaw, yesterday he will introduce an amendment later in the session providing for a complete revision of the statutes of Canada.

Laidlaw made the statement in reply to a question by John Diefenbaker (P.C.-Lake Centre) who asked whether a complete revision of the Criminal Code would be made in the future.

The minister said it is difficult to get the necessary number of members to undertake the work of a complete revision.

He said a commission will be needed for a revision of all legislation since 1900.

# Political Gloves Come Off in U.S.

## "Poorest President" Answers Blat at "Worst Congress"

By William F. Arbaugh  
WASHINGTON, June 10.—(AP)—The political gloves have come off in the white of President Truman's "worst Congress" speech and a Republican leader's "poorest president" retort.

The long-distance verbal slugfest shows every sign of turning the United States presidential campaign into the roughest and toughest in years.

The name-calling started yesterday at Spokane where Truman, quickly building for votes in his western tour, lashed out anew at the Republican-controlled Congress. He told a group of delegates that the American people deserve more of the present Congress if they fail to vote in November.

**GOP'S HIT BACK**  
Republican Congress members struck back swiftly and pointedly. "There are a lot of people," commented the House of Representatives Republican leader, Charles McNair of Indiana, "who think Mr. Truman is the poorest president we have had since George Washington was elected."

House speaker Joseph Martin of Massachusetts added, "There are people who have said that about the president."

Republican Senators were somewhat more restrained in their public comment.

But Senator Kenneth Wherry of Nebraska, acting majority leader, accused the president of playing "word politics."

**TACT HAS CHANCE**  
Senator Homer, 155 of Ohio, chairman of the Senate Republican policy committee and candidate for his party's presidential nomination, will have a moderate-to-temperament forum for a rebuttal tomorrow night.

Truman, who has tangled with Congress before on Congress records, is booked for an appearance on the National Broadcasting Company's "Town and Country" program. The broadcast, on the subject "shall we go back to the new deal," was planned before the president's latest outburst.

# Nearly 150 Candidates To Contest Sask. Vote

REGINA, June 10.—(CP)—The CCF and the Liberals seemed slated today to account for the majority of the candidates in the June 24 Saskatchewan general election with

With nominations due to close at 2 p.m. MST today, it was expected that close to 150 candidates would file papers for the election. Efforts will be contested on the June date within the two remaining seats will be decided July 22.

**CCF CONTEST ALL**  
Only the CCF has indicated it would contest the full 76 seats up for decision on June 24. The Liberals had picked 41 candidates and Social Credit 38. The Progressive Conservatives had declared their intention of running eight candidates.

Voting in two of the 32 ridings—the far-northern constituencies of Athabasca and Cumberland—had to be postponed until July 22 because late spring thaws made election administration impossible in these districts. Nominations will be on July 8.

In an attempt to end the domination of the legislature by the CCF—which holds 47 seats—the Liberals and Progressive Conservatives have joined hands in a number of ridings to run coalition candidates. One such instance is in Weyburn where Premier T. C. Douglas will be seeking reelection.

**COMBINATIONS IN CITIES**  
Combinations of Liberals, Progressive Conservatives and Independents are lined up against the CCF in each of the three two-member city ridings of Regina, Saskatoon and Moose Jaw.

In five constituencies a four-way fight has been promised among CCF, Liberals, Progressive Conservatives and Social Credit. The Progressive Conservatives have not had representation in the legislature since 1934.

The Romans used crude pieces of copper as money prior to the reign of Servius Tullius.

# HER PARENTS FAIL TO ATTEND

## At Last—Michael and Princess Anne Marry

ATHENS, June 10.—(CP)—Michael, youthful exking of Romania, and Anne, 24-year-old Danish princess of the house of Bourbon-Parma, were married today in the Royal palace here.

In a ceremony which took slightly more than 20 minutes, Archbishop Damaskinos of the Greek Orthodox church united the royal families of Romania and Denmark. Anne, Michael's first met at the wedding last fall of Princess Elizabeth and Prince Philip in London.

Anne, wearing a rose-colored embroidered tulle dress with a veil and an 18-foot long train carried to three steps, was given away by her uncle, Prince Erik of Denmark.

King Paul of Greece acted as best man for Michael, who wore

# Police Fear War Between Seamen Unions

CORNWALL, Ont., June 10.—(CP)—Two large groups of rival seamen are camped within a mile of each other along the Cornwall canal and police fear a small war is about to be fought.

Yesterday they quelled a short-lived riot after a squad of Mount Royal police and trucks dispatched about 150 Canadian lake seamen's union men on Cornwall streets.

Police said the Canadian Seamen's Union picketing the strike-bound waterfront had prepared to storm the motorcade convoy which reached Cornwall at mid-night.

So far, police have arrested 25-year-old Jacques Desjardis of Montreal and charged him with illegal possession of firearms. Branding a 38 revolver, the Montreal man, who holds a C.I.S.U. card, was badly beaten by 38 men on the waterfront and lodged in jail after he was fished from the Cornwall wharf.

At other points along Lake Ontario the six-day-old strike was comparatively quiet. The Canadian Seamen's Union (C.S.U.) struck in force five shipping firms to force C.S.U. crews. The firms—Canada Steamships, Transit Packers, North West, Narnia Steamships and Colonial Steamships—have charged the C.S.U. with Communist domination and have hired crews from the C.I.S.U.

# Sask. Government's Sodium Sulphate Plant Is Opened

CHAPLIN, Sask., June 10.—(CP)—The Saskatchewan government's \$1,000,000 sodium sulphate plant was officially opened yesterday in Regina. F. E. Thompson, who gave the plant was an "excellent demonstration of what can be done by the people of Saskatchewan."

The plant, near this town in the west of Moose Jaw, is expected to produce 15,000 tons of sodium sulphate annually and increase the provincial income by \$1,000,000 to \$2,000,000 a year, the premier said.

The salt—almost pure sodium sulphate—lies in solution in the water of nearby Lake Chaplin. The water is pumped into reservoirs and allowed to evaporate, leaving the sodium sulphate crystals at the bottom of the reservoir.

# 10,000 Idle From Floods

VANCOUVER, June 10.—(CP)—Between 8,000 and 10,000 workers here and in the many watershed areas of British Columbia are idle because of the floods. It was reported today. The total does not include the thousands of business farmers and their families.

National Employment Service of British Columbia reported 3,000 to 4,000 small men are out of work in New Westminster alone.

Agricultural workers, normally seasonally occupied in the Fraser valley fruit belt, now have no jobs.

Both CIPR and CNR report men laid off.

Others unemployed because of the flood include 400 smelter workers from Trail, 300 coal-miners whose digging are flooded throughout the province, workers in more than 10 planingmills flooded in Prince George.

# Cancer Donations Swell Fund

COLLEGIATE, June 10.—(CP)—Collections for the Cancer Campaign fund passed the \$24,707.50 mark Wednesday.

Donors of over \$10 were Rimbly (Lions Club), \$50; Employees of Cokerhill Plow Co., \$25.50; Greater Staff Welfare Fund, \$10; and Wood Dale Women's Institute, \$25.

Donors of \$10 were: Gantz Agency, Ltd.; P. J. Hardy; Hancox Jones; Lumber Co.; Canadian Coneyways Ltd.; Mary St. Germain; United Church Ladies Aid; Rimbly; J. Bantley; Rimbly Dr. F. S. Chisholm; L. McIntyre; V. King; Mrs. A. K. Caldwell; Viking Mrs. Sam Swift; Viking; Moreswell and Rutherford Sewing Group, Viking.

More than 165,000,000 telephone calls are made daily in the United States alone.

**League Meeting**  
Final seasonal monthly meeting of the King Edward Park Community League will be held in the Community Hall Monday at 8 p.m.

# Regina's Rainmaker Delivers the Goods

MEDICINE HAT, June 10.—(CP)—Regina's rainmaker took a public shower today within 12 hours of his arrival and setting into operation of his "Universe"—an electromagnetic device he claims produces rain.

Donald S. Johnson says his machine draws energy from both the moon and the lightning and initiates the condensation of moisture by magnetizing the surrounding air.

His plans are to work in Medicine Hat for a week and then to move to a farm just southeast of the city.

His efforts are followed with some interest—an early-season drought already has reduced the rye crop's potential by 50 per cent.

# SASK. URANIUM FIND MAY BE BIG ONE

OTTAWA, June 10.—(CP)—Uranium authorities last night said discovery of ore deposits in the north-east part of Saskatchewan may prove to be the first big uranium finds since Trade Minister Howe threw open prospecting to the public several months ago.

Uranium is required in the manufacture of atom bombs.

"This may prove to be the first big find," one uranium official said. "The government's Eldorado Crown company in the Lake Athabasca district and the whole area there is believed to hold great possibilities."

Meanwhile, it was understood the Eldorado Mining Company now is beginning underground operations in the Lake Athabasca district to bring uranium ore to the surface.

# Buyers' Resistance To Reduce Prices

BAFF, June 10.—(CP)—Present high prices of autos, furniture and household appliances will be brought down by buyers' resistance and the heavy tax structure, delegates attending the International Credit Conference predicted yesterday.

The prediction came at a credit conference conducted under the chairmanship of J. Gordon Ross, Rochester, N.Y. Delegates discussed housing and finance, installment buying and department and apparel stores problems.

Credit group meetings continued yesterday with the cycle billing forum taking place last night.

Premier Ernest Manning of Alberta was guest speaker at yesterday's sessions, speaking on "International cooperation."

At the request of the Royal Air Force, the navy has ordered the Canadian weather ship located in the far north will co-operate in the first trans-Atlantic group flight by eight British jet-propelled planes. Naval headquarters announced last night.

# U.S. Labor Secretary Schwollenbach Dies

WASHINGTON, June 10.—(AP)—Labor Secretary Lewis B. Schwollenbach died today.

He had been ill several weeks. He was 52 years old and had been in the States labor department since June 10, 1945.

The White House said death resulted from "cardiac failure while complicated by recent illness."

President Truman, now on the west coast, has been notified of his death.

# 50 YEARS OF "Miracle Miles"

PEP!  
POWER!  
PICK UP!  
PERFORMANCE!

# ... in the 50th ANNIVERSARY Dynamic Series Oldsmobile

Oldsmobile... here is the car with the youthful personality... built by the continent's oldest car manufacturer... and it is the only car that can truly be called Dynamic. When applied to Oldsmobile for '48, "Dynamic" is more than just another word. It's an action word, especially suited to the spirited personality of these action-styled, action-engineered cars.

In its half century of automotive progress, Oldsmobile every year has built cars designed for the utmost in reliability and all-around satisfaction. Oldsmobile for '48

is the latest and greatest in a long line of cars unexcelled in appearance, comfort or driving ease. In sparkling new colors, attractive, roomy interiors, pleasing appointments... the Dynamic 1948 Oldsmobile has a record of fifty years of Miracle Miles to prove its pep, power, pick-up and performance.

No matter what feature or quality you seek—Oldsmobile has it—including the famous GM Hydra-Matic Drive as optional equipment at extra cost.

# Railways Battle Continuing Floods

## Final Estimates Run Into Millions of Dollars Damage

Canadian National Railway yards in Edmonton have been virtually stripped bare of steam shovels, pile drivers and bulldozers to battle B.C. floods.

## Tourist Cabins To Be Built

Ten tourist cabins, to cost a total of \$50,000, will be constructed in Edmonton's South Side.

Decision to proceed with the construction was made at an executive meeting of the Good Roads Association Tuesday.

The Good Roads Association is a division of the Alberta Motor Association.

Each of the new cabins will be large enough to accommodate four persons, it is planned.

Each will have a "built-on" garage.

Arrangements for construction, which it is thought will be calculated on a cost-plus basis, are now under way.

Finance and award of contracts are now under construction by the Association.

August 1 has been set as the date by which the cabins should be ready for occupancy.

The original plan, for 20 cabins, may be augmented in the future, spokesmen said.

Construction of the cabins was undertaken as an answer to City Commissioners' request for greater tourist accommodation.

## Doctors' Salaries Leap 60 Per Cent

OTTAWA, June 10.—(CP)—Salaries of Canadian doctors leaped 60 per cent from 1939 to 1945, it was disclosed today.

The figures came from the Bureau of Statistics, which released results of a survey showing the average Canadian doctor made \$5,000 in 1939 and \$8,000 in 1945.

## BACK TO NATURE INTRIGUES GIRLS

OXFORD, England, June 10.—(CP)—John Reeves objected to male Oxford undergraduates bathing in the nude in "Parson's Pleasure," a second-hand backwater of the River Cherwell.

Something should be worn, Reeves wrote in the university magazine Isis, to "save us these shocks to our sensibilities."

But the girls, who bypass the bathing enclosure when boating on the river, voted Reeves down. They suggested a "Nude Delight" where women, too, could get back to nature.

## Coal Men Confer Here

Problems confronting the coal industry in Alberta were being discussed with Mines Minister Hon. N. E. Tanner today by domestic and steam coal operators.

Vincent A. Cooney, Calgary, secretary of the Alberta Domestic Coal Operators Association and W. C. Whitaker, representing the Steam Coal Association, are in Edmonton.

The operators' representatives planned to discuss the agenda for a meeting of provincial mines ministers to be held in Jasper the first week of September.

The two are members of a sub-committee in an advisory capacity to the provincial government lands and mines department.

Mr. Cooney said specific problems of Alberta coal producers were many and it is likely Mr. Tanner will announce later the presentations to be made by Alberta following today's meeting.

Heavy track rebuilding equipment is being rushed to the west coast from as far east as Port Arthur, Mr. Keefe disclosed.

Diverting of equipment and men to the flood ravaged areas will undoubtedly delay normal summer programs on prairie divisions.

Contrary to popular belief, however, it will not take long to restore the normal flow of freight traffic once the tracks are repaired.

From five to 10 cars of perishable foodstuffs are getting to Vancouver each day. The cars are being unloaded about 60 miles east of Vancouver and moved the remaining distance by truck.

Heavy freight is now being routed through the United States.

There will be no great accumulation of freight to be moved when the lines are restored. About two or three days will see freight schedules back to normal, Mr. Keefe said.

Both CNR main line to Vancouver and the line to Prince Rupert have been knocked out by the floods for the past two weeks.

Canadian Pacific Railways in Edmonton are not so greatly affected as the CNR, CPR lines to Edmonton are all branches, the main line being through Calgary to the Pacific coast.

Even with a favorable turn in the B.C. flood situation it will likely be at least 10 days before rail service to the Pacific coast is restored, Mr. Keefe estimates.

Second body in the Buck Lake drowning tragedy last week-end has been recovered from the lake, RCMP announced Wednesday.

Body of Alfred F. Pearson, 31, was removed from the lake Tuesday, according to police.

He will be removed to Campbell's Funeral Home at Wetaskiwin, from Miniskik, near Buck Lake.

Still missing is Harold Burleigh, third drowning victim.

Body of Norma Bernice Bergstrom was recovered from the lake Thursday night.

# At EATON'S, Friday

Tour the Store, Friday, and you'll find reductions in several of the departments—odd lots clearly carded—Not-Advertised Specials—but not large enough to merit newspaper mention.

## The "Royal" Electric Floor Polisher

Polishes and Buffs Every Part of Your Floor

Just watch the family scatter when floor-cleaning recruits are needed! And who can blame them? It's probably the least pleasant job of the lot! But the Royal Polisher has put an end to the drudgery—They've turned out a machine that actually polishes quickly, buffs brightly. Floor-cleaning now is a stand-up job, done beautifully in less time.

- Come in and see it demonstrated!
- Smooth powerful motor.
- High-speed circular brush.
- Approx. 22 feet of cord.
- Operates on 60 cycles.

EACH.

**\$64.50**

Available on convenient EATON Budget Plan
